

Real-Time Collaboration for Workforce Support & Well-Being

eCare Vault supports your workforce and empowers the clients you serve. Sustainable and meaningful change comes from creating a supportive environment—for both the staff who deliver support and the people they serve.

Our Workforce Support Hub is a modular, ready-to-deploy solution with a trauma-focused lens for front-line workers, supervisors and managers. Personalized resources, multi-level support and real-time collaboration break down silos, reduce administrative burden and maximize impact.

The #1 Public Sector solution that supports your workforce and drives the continuity of care!

Actionable Insights

Real-time dashboards with alerts, nudges, and analytics to guide progress

Modular and Configurable

Ala-carte modules that can be configured to your specific workflows in line with policy and practice

Seamless Integration

Multiple options to integrate with existing systems to ensure a unified user experience

Your Purpose-Driven Thought Partner

We are a group of social workers, providers, engineers, data scientists, and policy advisors who have lived-experience and interdisciplinary perspectives.

As your thought partner, we are committed to the principles of real-time collaboration and person-centered supports to empower your workforce and enhance client outcomes
